Certified Tube Welders—7 days per week!

Most of the work will be performed 6 days per week, 10 hours per day (2 shifts). Certified heli-arc tube welders will work

Seven days per week, Ten hours per day!

(during critical path tube replacement)

Common Arc Weld Testing:

Hayes Mechanical and Prairie State ACCEPT Hayes Mechanical Welders certified through Common Arc.

SAFETY FIRST

YOUR SAFETY IS OUR TOP PRIORITY

The Health & Safety of each employee is the #1 Priority for Hayes Mechanical and Prairie State. If you are a skilled Union Boilermaker, committed to working safely, join us on our project.

Hayes Mechanical will be performing 100% pre-employment drug testing, as well as random testing throughout the project.

Current MOST drug tests WILL be accepted.

Union Labor—NMA Agreement

COVID-19 / Best Work Practices:

Significant efforts have been made to maintain a safe working environment during the COVID-19 Pandemic, including:

- Daily health screening for all personnel entering the site.
- Additional cleaning & dis-infecting of all break & lunch areas (before & after use).
- Break / lunch areas erected on the boiler for easy access.
- Hand sanitizer available throughout the jobsite
- Face coverings provided—when required per CDC guidelines

Boilermaker work includes:

- Replacement of bull-nose boiler tube panels
- Boiler tube replacement (Platens, Economizer, Primary & Secondary SH)
- SCR Catalyst Replacement
- Expansion joint repair and replacement
- Duct repairs & more....

Jobsite Amenities:

Prairie State's Campus offers enhanced amenities to provide for a positive work experience for contractor employees, including:

- Indoor Boiler Building
- Lunch—break facility (clean, heated and air-conditioned)
- Vending Machines
- Secured & well maintained parking lot

LODGING DISCOUNTS!

Prairie State has secured discounts at the hotels listed for the craft men and women working on our project.

PRAIRIE STATE Generating Company

Located in Washington County, Illinois, the Prairie State Energy Campus is a technologically advanced electric generation facility utilizing domestic Illinois coal resources from its adjacent underground mine to power its 1,600 megawatt power plant.

Since 2012, Prairie State has been providing base-load electricity on behalf of its not-for-profit public power owners to more than 2.5 million families across the Midwest.

Prairie State is a recognized leader in the coal-fired power generation industry and is dedicated to achieving its vision of becoming the best coal mine and coal-fired power plant in the country.

Founded in 1918, Hayes Mechanical is a pioneer in the boiler, construction, and repair industry with management now in the third generation of the original Dan Hayes Boiler Co. Through a steady, well-planned growth program, Hayes Mechanical has added piping and HVAC service Divisions.

Today, one hundred years later the industry has expanded greatly and so has Hayes Mechanical. With eight locations around the U.S., Hayes Mechanical is able to support our Customers locally and nationwide.
